Laser Engraving, Powder Coating & Graphic Design

Hydrate in style with laser engraved tumblers

We offer custom laser engraving and powder coating, whether you need 1 or 1000 items.

From simple black on silver corporate logo gifts to 4-layer powder-coated masterpieces customized with hand-applied inks, our family-owned and operated laser design studio is flexible enough to handle any job.

Our shop features two industrial-quality laser engravers capable of running up to 300 tumblers per shift, a sand blast cabinet, a powder-coating booth, a vinyl cutter, a shirt press, and even a 3D printer. Our owner has 15 years' graphic design experience and can help with your artwork if necessary.

As a budget-friendly alternative to our in-house custom powder coating, we also laser engrave items pre-coated by the manufacturer. We stock a large assortment of colors and styles, and can get many others in a few days. If you are in the Wichita, KS area, we do allow you to bring your own items for engraving. Because of issues with trapped moisture in the bottom cap and contamination, we do not powder coat previously used drinkware.

Customize Your Tumbler

Laser Engraved Stainless Steel

We use an industrial marking compound to etch your design into a stainless steel mug. The heat of the laser creates a permanent mark that not even aircraft stripper will remove.

Laser Engraved Factory Coated Cups

As a budget-friendly alternative to our in-house powder coating, we will laser engrave items that come powder coated directly from many popular manufacturers.

Custom In-House Powder Coating

Our in-house powder coating service opens up your design options. With 60 stock colors, our powder artist creates ombre' fades, multi-color designs & glitter tumblers.

Full Color Photo or Logo Decals

We use either transparent or white decals, depending on the look you're after, to create beautiful art and then we coat them with a clear layer of powder so they won't peel.

Hand-Applied Artist's Ink

Whether you're looking to add a stunning backdrop to your cup or some strategic points of blended color, our artist hand applies ink, then protects it with a durable clear gloss powder coat.

Our laser engraving studio is located just outside Wichita, KS. We ship worldwide!

Base Price Includes 1-Location Engraving

Base price for engraved drinkware includes:

- Laser engraving (up to 4" x 4" area) in one location
- Tumbler (or other drinkware). Choose from :
